

GO2 PROVIDES CORONAVIRUS OPERATIONAL UPDATE

25th March, 2020: The GO2 People Ltd (ASX:GO2) ("The GO2 People" or "the Company") provides the following update on its operations in light of the developing COVID-19 situation and advises that the business has seen little disruption to date.

Our priority is the health of our people, their families and our business partners during this period, as they are the core of our business. We are committed to ensuring that we are doing our part to limit the spread of the virus throughout the environments in which we operate and follow the direction provided by Government and our clients.

At this point in time, the Company has seen little disruption to our active clients. We have taken a proactive approach to communicating with them on a daily basis and will continue to do so. In addition to this, we have outlined to our clients the steps we have taken to ensure the candidates we present to them aren't infected or showing symptoms, and ways to minimise their potential exposure to the virus.

Some of the steps the Company has taken include:

- Implementation of a client and candidate communication plan to keep up with the evolving nature of the situation which includes daily contact via phone and /or email.
- We have fast tracked an online on-boarding portal to reduce the amount of face to face contact with our candidates.
- We have included a hand hygiene video into our employee induction process.
- We have added medical and travel questions to the application process designed to both educate and identify those at risk.
- We have clearly communicated the processes to be undertaken for those who show symptoms.
- We are also investigating the options to provide specific personal protection for our candidates and clients for extra precaution, and to help develop a safer working environment.

A number of clients have stated that all 'non-essential' travel will cease and they will become increasingly reluctant to accept interstate employees who work on a FIFO basis. This could lead to opportunities with certain clients and, as such, we are

monitoring this closely. Importantly the Company continues to mobilise new candidates to site in WA and QLD and clients continue to allocate GO2 with new job orders for various projects. In addition, strategic partnerships which will increase the Company's capability and increases sector diversification, are being explored with multiple meaningful discussions held with potential business partners.

Furthermore, the Company has fast tracked the development of its online training capability and anticipates launching its first online qualifications in the coming weeks. If required, GO2 has the capability and technology to move our people to a 'work from home' model but it appears unnecessary at this stage.

The Company acknowledges the seriousness of this situation and will continue to pursue opportunities to ensure the health and safety of our people. We will continue to provide updates as and when required.
